#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by McGreevy et al. (US 4781175). In figures 4 and 10 McGreevy et al. disclose a connecting device for an electrosurgical instrument that comprises at least one gas supply line (228) and one power supply line (222) comprising a housing (44) out of which passes a gas supply line with a power line disposed within the gas supply line; a branching device located in the housing by way of which the power supply line is diverted out of the gas supply line in order to form respectively a gas connection end piece and a power-connection end piece; a plug to which the gas-connection end piece and the power-connection end piece are coupled and which is fastened to the housing in order to make connection with a socket in an appliance or with connecting leads; and a filter is disposed within the housing in the gas-connection end piece.

***Response to Arguments***

Applicant's arguments filed 9/18/06 have been fully considered but they are not persuasive. Applicant argues that the '175 patent does not disclose the "branching device" element and therefore, the '175 patent does not disclose each and every element of the claimed invention. It is the Examiner's position the internal structure of the housing meets the limitations of the branching device as claimed by applicant.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
